Platinum Financial Sp. z o.o. spółka komandytowa  
Ul. Warszawska 39  
61-028 Poznań

Btone  
Ul. Jana Heweliusza 23  
62-020 Zalasewo

REFERENCE LETTER

*Btone has designed and developed a system supporting the sale of financial products for Platinum Financial (PACT).*

*Platinum Financial acts as an intermediary in the sale of financial products throughout the country. We work with many financial institutions, mainly with banks and loan companies. These circumstances mean that the technologies we use must meet the highest requirements and provide reliability and security.*

*We are currently cooperating with Btone in the area of maintaining and developing an application supporting the sale of financial products. The system requires connection and integration with other IT systems of our suppliers. In addition, the system also supports the internal organization of the company.*

*Cooperation with Btone runs correctly. Developers combine professionalism, broad knowledge of information technology with creativity and commitment. These features make the team open to unconventional solutions.*

*We strongly recommend Btone as a solid and reliable business partner*

Sincerely,

Artur Skala

Vice Chairman of the board
