#### REFERENCE LETTER

Graphcom company (former employer Mr. Mariusz Wiliński) designed and implemented a system supporting business processes for the ZUHIP company - an ERP class system with an online store platform.

ZUHIP company is a distributor of electronics, household appliances. The company has a network of showrooms and works well in the internet channel. Due to the above, the implemented solution had to be unique and provide us with a competitive advantage.

Mr. Mariusz Wiliński played a key role in the implementation of the project. The high management culture and above-average technical skills of Mr. Mariusz allowed us to quickly achieve the final goal - streamlining business processes in the company and increasing revenues. Our company, due to the specificity of the Internet channel, had to invest in all types of integration with other systems, starting from product information database systems and ending with integration with shipping companies' systems.

The cooperation with Mr. Mariusz was exemplary and we are happy to remember her today. In addition to professionalism, creativity and commitment, knowledge of many technologies from various areas should be highlighted.

We strongly recommend Mr. Mariusz Wiliński as a reliable business partner. We would like our paths to meet again in the future.

Sincerely,

**ZUHIP Sp. z o. o.**  
Olszówka 4C, 62-731 Przykona
